Hi Louis,

Nice meeting you yesterday mate, if you ever need anything just shoot me an email or call me and if I can help I will. My company is a big company and has a lot of reach and opportunities.

Regards

CHALLENGER SERVICES GROUP

Hey Stephen, good morning mate!
It was a real pleasure meeting you yesterday.

Thanks again for the long black and the great chat, really enjoyed the positive vibes!!

Of course!! I truly appreciate your offer to help. I've got a strong background in project management and software engineering (process automation, building systems, websites, etc.), and I'd be glad to explore any role or project where my skills could add value to CS Group. I'm attaching my resume for your reference.

That said, being on a student visa also means I'm open to different kinds of opportunities in the meantime... got to keep the wheels turning, right? hahaha

Let's definitely keep in touch, and if there's ever something I can support you with, don't hesitate to reach out either.

Cheers,
Luis

Hello my friend,

Are you still looking for a building managers role?

Hey Stephen, happy new year!

And it is great to hear from you, mate!

Yes, I am still open to Building Manager roles, but also keen on anything technical or project-related if that's something you have in mind.

Let me know what you're thinking!

Cheers,
Luis

Hi Luis,

It's a good year my friend and will only get better.

Research the company Delux building Management

Then call Nathan Canmbell to see if he can help you with what your looking for.

Nathan: 0447356888

Hey Stephen,

The year is already rolling, mate... nothing like the present moment!

Thanks a lot for this, I really appreciate you pointing me in the right direction.

I've had a look at Delux Building Management and can see a strong alignment with my background across building operations and the technical / automation work I've been doing. I'll give Nathan a call and see if we can connect.

Thanks again for taking the time to help and for making the introduction - much appreciated!

PS: As I write this note, I'm sitting in the same spot where we met a couple of months ago. Funny how things come full circle.

Cheers,
Luis
