"The Five Stages of Project Team Development"

Read the article at: https://project-management.com/the-five-stages-of-project-team-development/

The article is about the Tuckman's model for team development. Please read carefully and also read the example of team moving through the five stages.

Answer the following questions:

1- Do you think that the teams fit with the Tuckman's model? Please mention both the similarities and the differences that you can find.
2- Is the team leader performing her role correctly and making sure that the team goes through the stages smoothly?
3- Is the Team Effective or Not?
4- Reflecting on your team group, do you think that your team is following the Tuckman's model? If so, what stage do you think your team is in?
5- If your team has not reached the performing stage yet, what do you think the reason for that? What can help your team get to the performing stage?
