

ASSESSMENT 3 BRIEF - Option 1: Industry Placement	
Subject Code and Title	ITW601 Information Technology - Work Integrated Learning
Assessment	<u>Option 1: Industry Placement</u> e-Journal - Industry Placement Outcome and Reflection
Individual/ Group	Individual
Length	3,000 words (+/- 10%) Hours to be completed: 192 out of 192 hours
Learning Outcomes	The Subject Learning Outcomes demonstrated by successful completion of the task below include: a) Critically evaluate a problem within the ICT body of knowledge, including appraising established theories and recent industry developments. b) Devise a structured inquiry-based ICT project relevant to professional practice with the use of appropriate principles and methods, and with a suitable level of personal autonomy and accountability. c) Communicate effectively in ways appropriate to the discipline, client, audience and purpose. d) Apply a systematic process of problem solving to identify and assess a real world need and propose an appropriate ICT solution to the problem. e) Critically reflect on personal and professional experiences to engage in independent development beyond formal education for lifelong learning.
Submission	12-Week Duration: by 11:55pm AEST/AEDT, Wednesday of week 12 6-Week Duration: by 11:55pm AEST/AEDT, Wednesday of week 6
Weighting	40%
Total Marks	100 marks

Congratulations!

You are incredibly close to wrapping up the industry placement for which you have been working so hard on throughout this trimester!

Here is your final task.

Assessment Task

Write a 3,000-word (+/- 10%) Reflective Journal outlining the nature of industry placement positioning and personal reflection on what you have learnt throughout this journey.

Please refer to the **Task Instructions** for details on how to complete this task.

Context

You have reached the final stage of your industry placement, congratulations! Finishing a project is equally important as starting and executing it. Project delivery is one of the major concluding steps in every successful project and allows an opportunity to showcase both presentation and writing skills. It's also an important step in self-reflection of what you have gained throughout the project. Considering your industry placement as one of the projects, now it's a chance to showcase what you have learnt and how this industry placement has helped to reshape your personal and professional development.

This assessment will assist you in further developing professional skills to prepare you to confidently present your work to colleagues and various stakeholders in the future.

Task Instructions

This final assessment is based on the previous two assessments where you will first review those, then provide an industry placement outcome and self-reflection. To complete this assessment, you need to:

- Outline the outcomes of your industry placement positioning
- Describe how your understanding of industry knowledge deepened your personal and professional insights
- Provide an update in the form of a personal reflection statement that informs the reader of the learning and experiential insights you have gained while building upon the earlier approach you adopted for your previous assessments.

Reflective Journal Structure

Follow this structure for your reflective journal:

- **Introduction** - Background information (500 words)
Add to or amend the description of the organisation with where you were placed, the nature of the industry in which it operates and the progress or outcome of the project/s on which you have been working since starting your industry placement.
- **Industry Placement Positioning** (500 words)
 - Type of industry placement - Expectation versus offerings
 - Employer's likely expectations in terms of positioning.
- **Project Synopsis Review** (1000 words)
 - Based on what you have learnt during Module 9-12 review your project synopsis (submitted as part of Assessment 2) and highlight what parts of the synopsis needs more work/understanding.
- **Reflective statement** (1000 words)
 - Critically reflect upon the learning and experiential insights that have been gained. Also provide the comparison with some credible resources.

If any sources are used, you must include in-text citations and references in APA style.

Please refer to the Assessment Rubric for more details.

Tips for Writing Reflective Journal entries

- When writing your reflective journal, the style of writing is more informal, but you should still use full sentences.
- Remember that a reflective journal is a record of your thoughts about your learning during your studies and the WIL placement, so you should describe your experiences of these and provide your analysis and reflection on them.
- Ensure you include any in-text citations and references if you refer to any sources in your reflective journal.

Referencing

It is essential that you use appropriate APA style for citing and referencing research. Please see more information on referencing in the [Academic Skills webpage](#).

Submission Instructions

Submit this task via the Assessment 3 link in the main navigation menu in *ITW601 Information Technology - Work Integrated Learning*. Please save your

assessment and submit it as the title of your submission using the following naming convention:

subjcode_Module#_surname_firstname_assessment_title.

(e.g., ITW601_M12_Jones_Jemima_A3_Option 1 Industry Placement)

Your Learning Facilitator will provide feedback via the Grade Centre in the LMS portal. Feedback can be viewed in My Grades.

Academic Integrity

All students are responsible for ensuring that all work submitted is their own and is appropriately referenced and academically written according to the [Academic Writing Guide](#). Students also need to have read and be aware of the Torrens University Australia Academic Integrity Policy and Procedure and subsequent penalties for academic misconduct. These are [viewable online](#).

Students also must keep a copy of all submitted material and any assessment drafts.

Special Consideration

To apply for special consideration for a modification to an assessment or exam due to unexpected or extenuating circumstances, please consult the [Assessment Policy for Higher Education Coursework and ELICOS](#) and, if applicable to your circumstance, submit a completed [Application for Assessment Special Consideration Form](#) to your Learning Facilitator.

Assessment Rubric

Assessment Attributes	Fail (Yet to achieve minimum standard) 0-49%	Pass (Functional) 50-64%	Credit (Proficient) 65-74%	Distinction (Advanced) 75-84%	High Distinction (Exceptional) 85-100%
<i>Application of concepts in relation to workplace research</i> (40%)	Shows a lack of understanding of the concepts from the readings or merely mentions the terms without showing understanding. Lacks imagination. Does not exercise creative skills.	Shows some comprehension but only a generalist understanding of the concepts. Shows little imagination. Aware of some creative techniques and uses them, but with limited success.	Uses the concepts implicitly. Shows a good understanding of the concepts. Draws relevant links to the issues involved. Uses imagination and a limited range of creative techniques.	Discusses the concepts and uses them to analyse the issues involved. Uses imagination to go beyond boundaries and applies creative techniques with skills.	Excellent integration of readings through a discussion of the value and limitations of the concepts for the analysis. Uses imagination and explores a variety of perspectives. Employs appropriate creative techniques to enhance thinking.
<i>Analysis of ICT-related issues</i> (20%)	Analysis largely absent; largely copies other authors' texts or only lists points.	Identifies different perspectives; describes these perspectives adequately but does not relate these to each other.	Identifies different perspectives; discusses these perspectives and identifies the differences between them.	Discusses different perspectives and integrates the relationships between these perspectives; extracts implications from differences and similarities.	Discusses different perspectives, integrates the relationships between these perspectives; extracts implications from differences and similarities; infers patterns and

					contradictions.
<i>Critical thinking and reflection</i> (20%)	Absence of reflection and/or critique. Fails to provide any supporting arguments.	Attempts to be critical and reflective but with poor results. Supporting arguments tend to be irrelevant, undeveloped or contradictory in nature.	Actually reflective; provides a good interpretation of the issues under evaluation. Some relevant supporting arguments are provided.	Very reflective; provides a good interpretation of the issues under evaluation; undertakes a comparative analysis of alternative options. Sound supporting arguments are provided that strengthen the main argument.	Very reflective; excellent interpretation of the issues under evaluation; compares alternative options with the original interpretations and reflections. Excellent and highly relevant supporting arguments are provided.
<i>Communication of ideas through the organisation, structure and logic of argument and use correct citation of key resources</i>	Does not follow a clear argument; incomprehensible, poorly structured; fragmented ideas; disconnected paragraphs.	Presents a relatively coherent argument; manages to communicate ideas but it is difficult to understand the links between the	A satisfactory and comprehensive argument with a clear structure; coherent presentation of ideas. Good presentation.	Well-sustained argument with a clear structure; comprehensive and coherent presentation of ideas. Very good	A sustained, coherent and logical argument. Able to synthesise and integrate complex ideas. Excellent presentation.

<i>and evidence .</i> <i>Clarity of expression</i> (20%)	Demonstrates inconsistent use of good quality, credible and relevant resources to support and develop ideas.	paragraphs. Demonstrates use of credible and relevant resources to support and develop ideas, but these are not always explicit or well developed.	Demonstrates use of credible resources to support and develop ideas.	presentation. Demonstrates use of good quality, credible and relevant resources to support and develop arguments and statements. Show evidence of wide scope within the organisation for sourcing evidence.	Demonstrates use of high-quality, credible and relevant resources to support and develop arguments and position statements. Show evidence of wide scope within and without the organisation for sourcing evidence.
