

SUBJECT OUTLINE**Subject code and name**

ITW601 Information Technology - Work Integrated Learning

SECTION 1 – GENERAL INFORMATION**1.1 Subject level and weighting**

Subject level	Subject credit points
600	20

1.2 Student Workload

Total workload hours - 192 hours made up of supervised, facilitated learning and personal study.

Option 1: Industry Placement**Workload hours (supervised)**

Minimum Internship hours: 120 and the **remaining hours** are allocated to facilitated learning, personal study, and other related academic and learning activities.

Option 2: Industry/Competition Brief/Capstone

Duration	Facilitated study h/p/w	Personal study h/p/w	Total study h/p/w
12-week duration (Industry project)	4	12	16

1.3 Delivery mode☒ On campus☒ Online☐ Other (please specify)

Work-integrated learning activity
Hybrid
Full-time

1.4 Pre-requisites and co-requisites

☒ Yes ☐ No

If YES, prove details of the pre-requisite or co-requisite requirements below.

Pre-requisite: REM502 Research Methodologies AND Completion of at least 70 CP in the course

1.5 Specialist facilities and/or equipment requirements

☒ Yes ☐ No

If YES, provide details of specialist facilities and/or equipment below.

Computer/laptop and relevant specialist software.

SECTION 2 – ACADEMIC DETAILS

2.1 Subject Descriptor

This work-integrated learning (WIL) subject is designed to provide students with an opportunity to undertake a significant ICT project in a professional environment. This experience will enable students to develop skills that enhance their prospects of gaining meaningful employment and build their future career. WIL expands upon the students' learning environment while they are studying, allowing them to see first-hand how their learnings translate into 'real-world' practice. There are two WIL options available to students:

Option 1: Industry Placement

Students are offered the opportunity to undertake an industry placement at an organisation in a suitable ICT position. This encourages them to build long-term relationships with the tech industry and provides an opportunity for them to work with and learn from people who may end up becoming colleagues, managers or mentors. It also provides a context in which to enhance their communication skills and work collaboratively in a professional context. Students will undertake a series of industry-led tasks that are relevant to their field of study in order to understand the key concepts of working in and managing a professional technology team with emphasis placed on the operation of the environment.

Option 2: Industry Project

Students respond to criteria set within the context of an industry project. An understanding of research methodologies appropriate to professional practice and the documentation of personal creative investigation will be explored. Students will also further investigate and examine entrepreneurial and commercial opportunities through collaborative work practice. Students draw

upon the philosophical, practical, methodological, theoretical and technical tools they have utilised over the duration of their degree to successfully complete an industry project. Students are mentored through this project with complementary practice-based expertise. Projects must pertain to the field of ICT. The subject is delivered from a cross-discipline perspective and draws on both specialised and common industry practices.

All projects must include evidence of critical analysis, reflexive and reflective practice and social engagement, in addition to the use of contemporary industry standard tools and techniques.

Students are required to work both independently and as part of a collaborative team in order to conduct research, analyse and define project parameters and deliver innovative solutions.

2.2 Subject Learning Outcomes

Subject Learning Outcomes

a) Critically evaluate a problem within the ICT body of knowledge, including appraising established theories and recent industry developments.

b) Devise a structured enquiry-based ICT project relevant to professional practice with the use of appropriate principles and methods, and with a suitable level of personal autonomy and accountability.

c) Communicate effectively in ways appropriate to the discipline, client, audience and purpose.

d) Apply a systematic process of problem solving to identify and assess a real world need and propose an appropriate ICT solution to the problem.

e) Critically reflect on personal and professional experiences to engage in independent development beyond formal education for lifelong learning.

2.3 Assessment tasks

a. 12-week duration

No.	Type and Description	Assessment due	Weighting (%)	Subject Learning Outcome(s) assessed
1	Title: Project Proposal and Planning Delivery Type: Group Outcome: Project Proposal and proposed solution	Module 4 (Week 4)	25%	a), b)

	Volume of Assessment: (1500 words +/- 10%) Hours to be completed: 64 of 192 hours			
2	Option 1: Industry Placement Title: e-Journal - Industry Placement Interview and Project Synopsis Delivery type: Individual Outcome: Industry Placement Interview, project synopsis & hour/duties e-journal Volume of Assessment: Hours to be completed: 144 of 192 hour (1000 words +/- 10%) Option 2: Industry Project Title: Project Action Plan Delivery Type: Group Outcome: Work in progress presentation and draft of work in progress report. Volume of Assessment: (4000 words +/- 10%) Hours to be completed: 144 of 192 hours	Module 9 (Week 9)	35%	a), b), c), d), e)
3	Option 1: Industry Placement Title: e-Journal - Industry Placement Outcome and Reflection Delivery type: Individual Outcome: Industry Placement Positioning, Personal Reflection & hour/duties e-Journal. Volume of Assessment: Hours to be completed: 192 of 192 hours. (3000 words +/- 10%) Option 2: Industry Project Title: Project Action Plan Review - Final Presentation Delivery Type: Group Outcome: Final presentation and written report. Volume of Assessment: (7500	Wednesday, Week 12	40%	a), b), c), d), e)

	words +/- 10% group submission and 1500 words +/- 10% individual contribution) Hours to be completed: 192 of 192 hours.			
--	--	--	--	--

b. 6-week duration

No.	Type and Description	Assessment due	Weighting (%)	Subject Learning Outcome(s) assessed
1	Option 1: Industry Placement Title: e-Journal - Introduction to Organisation and its Requirements Delivery type: Individual Outcome: Industry Placement Overview and hour/duties e-Journal Volume of Assessment: (500 words +/- 10%). Hours to be completed: 64 of 192 hours Option 2: Industry Project Title: Project Proposal and Planning Delivery Type: Group Outcome: Project Proposal and proposed solution Volume of Assessment: (1500 words +/- 10%) Hours to be completed: 64 of 192 hours	Module 4 (Week 2)	25%	a), b)
2	Option 1: Industry Placement Title: e-Journal - Industry Placement Interview and Project Synopsis Delivery type: Individual Outcome: Industry Placement Interview, project synopsis & hour/duties e-journal Volume of Assessment: Hours to	Module 9 (Week 5)	35%	a), b), c), d), e)

	be completed: 128 of 192 hours (1000 words +/- 10%) Option 2: Industry Project Title: Project Action Plan Delivery Type: Group Outcome: Work in progress presentation and draft of work in progress report. Volume of Assessment: (4000 words +/- 10%) Hours to be completed: 128 of 192 hours			
3	Option 1: Industry Placement Title: e-Journal - Industry Placement Outcome and Reflection Delivery type: Individual Outcome: Industry Placement Positioning, Personal Reflection & hour/duties e-Journal. Volume of Assessment: Hours to be completed: 192 of 192 hours. (3000 words +/- 10%) Option 2: Industry Project Title: Project Action Plan Review - Final Presentation Delivery Type: Group Outcome: Final presentation and written report. Volume of Assessment: (7500 words +/- 10% group submission and 1500 words +/- 10% individual contribution) Hours to be completed: 192 of 192 hours.	Wednesday, Week 6	40%	a), b), c), d), e)

2.4 Prescribed texts

These are core texts that are fundamental to meeting subject outcomes. Students may choose to purchase a copy. A limited number of these texts will be available for loan from the campus library.

2.5 Suggested readings and resources

The consolidated reading list for this subject is accessible in MyLearn with links to resources in the Library's digital collection. [Contact the Library via chat](#) or email librarysupport@torrens.edu.au if you have any problems accessing the reading list.

Policies and procedures, and related application forms, are available via the [Torrens University Australia website](#).

2.6 Course Learning Outcomes

Refer to [Student Hub](#) to access the Course Learning Outcomes.
